## **Video Conferencing is the Greener and Easier Alternative to Business Travel!**

**Easy to use and easy on the environment, today's video conference systems are also cost effective and reliable. You avoid the energy and effort needed to travel to client sites, staff meetings or training sessions. Gone too, are the days of having to purchase and store bulky and infrequently used hardware. Depending on your needs, a program may be installed on your desktop and accessed with a few clicks of your mouse. You can stay put and stay connected!**
